Janacek Construction A Certified Green Professional Company

Rogers, AR – Tim Janacek, of Janacek Construction of Rogers, AR, recently joined son Jonathan in earning the designation of Certified Green Professional (CGP). This accomplishment makes Janacek Construction fully certified in Green Remodeling as well as Green Building. This National Association of Home Builders' designation recognizes builders, remodelers and other industry professionals who reduce environmental impact by incorporating green building principles into homes—without driving up the cost of construction. Both Tim and Jonathan now have a solid background in green building methods and are equipped to design structures which provide buyers with lower energy costs, lower maintenance, better indoor air quality and higher long-term value.

The Janacek Construction Team routinely handles kitchen and bath remodels, room additions, deck and garage construction and ground up custom home construction. Janacek Construction of Rogers serves all of Northwest Arkansas. For more information visit their web site at www.janacekconstruction.com or call 479-621-0565.
